

Make a ***5-year NEW YEAR'S RESOLUTION*** 2025 – 2030!

Contribute to our Commonwealth's commitment to reduce carbon emissions 50% by 2030 (from the 1990 levels) with support from an experienced coach to assist you in developing a customized 5-year plan that reflects your unique energy saving options.

On the track to reach net-zero emissions by 2050, the steepest emissions reductions are set to occur between 2025 and 2030. That's when the most action needs to be happening, said Katherine Antos, undersecretary of decarbonization and resilience at the Massachusetts Executive Office of Energy and Environmental Affairs.

Support for creating your ***5-year NEW YEAR'S RESOLUTION*** will be provided by The Town of Lincoln's Green Energy subcommittee CFREE (Carbon Free Residential Everything Electric). CFREE will connect you with an experienced **Green Energy Coach** to help develop your customized ***5-year NEW YEAR'S RESOLUTION*** plan and/or will provide a ***Do It Yourself Guide*** for evaluating and implementing your own energy saving plan.
